# I) Introduction

This document is the User Guide for Store Switcher Extension. It provides extension functionality and introduces some tips for a quick start.

**Store Switcher** extension for Magento 2 allows users to detect website visitor's location by IP address and use it to bring the appropriate store view to visitors. The store switcher is like a combination of language and currency switcher. Users can also block certain IPs or URLs.

- Determine website visitor's location using IP address
- Suggest visitors to the appropriate store view
- Automatically switch language and currency according to store view
- Customize rules for each country and URL
- Customize popups with various options

## II) Where to Find Extension

After downloading and installing the extension, from the backend, navigate by this path:

Stores > Configuration > Magezon Extensions > Store Switcher:

Ŵ	Stores	×	<sup>7</sup> remaining for test	
STORES	1 Settings	2		
SYSTEM	Configuration			
	Store Switcher	<b>»</b>		
	Profiles		~	General
				Рорир С

## III) How to Use

#### 3.1. Configuration Settings

- 3.1.1. General Settings
- In General tab, choose Yes in Enabled to enable the module.

General	
Current Version [store view]	1.0.0
Enabled [global]	Yes
	Yes
	No
Popup Custom	
Title [global]	Please choose your delivery location

#### 3.1.2. Popup Custom

Under the **General** tab is **Popup Custom** tab. This tab shows you a list of options to customize your popup to fit your desired aesthetic. In **Popup Custom** tab, you will see:

Popup Custom	
Title [global]	Please choose your delivery location
Title View All	View all available locations
Title All Store [global]	SELECT YOUR DELIVERY LOCATION:
Title Color [store view]	
Text View All [store view]	
Text View All Background Hover [store view]	
Text View All Color Hover [store view]	
Dot Checked Color [store view]	

- **Title**: enter the popup title.
- Title View All: enter the title in View all locations option.
- **Title All Store**: enter the title of the location list. This list will appear after visitors click to view all locations.
- **Title Color**: choose a color from the color picker for **Title**.

- Text View All: choose a color from the color picker for the text displayed in Title View All.
- Text View All Background Hover: choose a color for the background hover of Text View All.
- Text View All Color Hover: choose a color for the hover text of Text View All.
- **Dot Checked Color**: choose a color for the **Dot Checked** displayed for location and currency.

This is how the popup displays in the frontend:

Once visitors click to see all available locations, another pop-up window will appear,

showing all available locations for them to choose.

men ∽ Men ∽ Gear ∽	Training 🗸 Sale				- ×
SELECT YOU	R DELIVERY LO	CATION:	Title A	Il Store	
🔗 Brazin	<ul> <li>Canada</li> </ul>	Germany	👫 United Kingdom	United States	
\star Viet Nam					$\sim$
			roga		٠

#### 3.1.3. Button Custom

Move on to **Button Custom** tab. This tab displays options for button customization.

Button Custom	
Text Button [global]	Go
	Go,etc.
Text Color [store view]	
Background Color [store view]	
Text Hover Color [store view]	
Border Color [store view]	
Preview Button [store view]	Go →

- **Text Button**: enter the text displayed for the button.
- **Text Color**: choose a color for text displayed for the button.
- **Background Color**: choose a color for the button's background.
- Text Hover Color: choose a color for the text hover.
- **Border Color**: choose a color for the button's border.
- **Preview Button**: see how the button looks like after customization.

Click **Save Config** button in the upper right corner to save the customization.

Here is the default button in front-end:

#### 3.2. Profile Settings

#### 3.2.1. Profile Grid

Go to **Store > Profiles** (under the **Store Switcher** tab).

Next, a grid will appear, showing a list of profiles and their information as below:

									Add New
							<b>Y</b> Filters	O Default View 🔻	🔅 Columns 🗸
Actio	ns	•	6 records fo	ound			20 🔻 per pa	age < 1	of 1 >
•	ID ↓	Name	Is Active	Display Type	Countries	Priority	Created Date	Update Date	Action
	1	Default	ENABLED	Redirect to a Store View / Change Currency	A total of 247 countries	i.	2020-11-26 03:21:25	2020-12-28 06:23:47	Select 💌
	2	Center	ENABLED	Redirect to a Store View / Change Currency	A total of 247 countries	0	2020-11-26 21:08:48	2020-12-02 01:47:24	Select 💌
	3	Footer	ENABLED	Redirect to a Store View / Change Currency	A total of 247 countries	0	2020-11-26 21:11:58	2020-12-02 01:48:15	Select 💌
	4	Automatic	ENABLED	Redirect to a Store View / Change Currency	A total of 247 countries	0	2020-11-26 21:25:12	2020-12-02 02:22:16	Select 💌
	5	Home Page	ENABLED	Redirect to a Store View / Change Currency	A total of 247 countries	0	2020-11-26 21:25:54	2020-12-16 06:52:39	Select 💌
	6	Url	ENABLED	Redirect to a URL	A total of 247 countries	0	2020-12-02 19:24:04	2020-12-02 21:21:25	Select 💌

- **ID**: shows ID of profile.
- **Name**: shows profile's name.
- Is Active: shows the status of the profile. The status can be Enabled or Disabled.
   To change a profile status, first, select the profile by checking the box in the first column. Then click the Action dropdown on the upper left corner of the window.
   Next, choose the status you want.

Actions		6 records	found (2 selected)
Delete		Is Active	Display Type
Disable		ENABLED	Redirect to a Store Vie
2	Center	ENABLED	Redirect to a Store Vie
3	1. Choo	se the pro	file to a Store Vi
✓ 4	Automatic	ENABLED	Redirect to a Store Vi
□ 5	Home Page	ENABLED	Redirect to a Store Vie
✓ 6	Url	ENABLED	Redirect to a URL

- **Display type**: shows the display type of popup.
- **Countries**: shows the total number of countries that a profile is applied for.
- **Priority**: shows the priority number of a profile.
- **Created Date**: the date when a profile was first created.
- **Update Date**: the most recent date when a profile was created.
- Action: click Select to Edit or Delete a profile.

#### 3.2.2. Profile Configuration

To Edit a profile, in the **Action** column, click **Select**, then choose **Edit**.

Created Date	Update Date	Action
2020-11-26 03:21:25	2020-12-28 06:47:30	Select 🔺
2020-11-26 21:08:48	2020-12-28 07:02:58	Edit
2020-11-26 21:11:58	2020-12-02 01:48:15	Delete Select
2020-11-26 21:25:12	2020-12-02 02:22:16	Select 🔻
2020-11-26 21:25:54	2020-12-16 06:52:39	Select 💌
2020-12-02 19:24:04	2020-12-02 21:21:25	Select 🔻

The profile settings will appear. It shows you 3 general options as in the screenshot below:

- Is Active: toggle on/off to enable/disable the profile.
- **Name**: insert name of profile.
- Priority: insert a number to set priority for a profile. Number values range from 0 to 99, in which 0 gets the highest priority and 99 gets the lowest priority. If you leave the Priority field blank, the latest created profile will have the highest priority.

	Is Active	Yes
	Name *	Default
	Priority	1
Rules		
Actions		

Next, click **Rule** to see options for rule.

	Is Active	Yes
	Name *	Default
	Priority	1
Rules		
Actions		
·		

Rule options are:

Туре	Specific Pages 🔻	
Countries	Afghanistan Åland Islands Albania Algeria American Samoa Andorra	
Apply by path of Url	/radiant-tee.html	
Exclude by path of URL		
Exclude IPs		

• **Type**: choose the display type for profile. Three display types are:

Home Page: apply rules to only the home page.

All Pages: apply rules to all pages.

**Specific Pages**: apply rules to specific pages of your choice.

Туре	Specific Pages 🔹	
	Home Page	
	All Pages	*
Countries	Specific Pages	
	Åland Islands	
	Albania	
	Algeria	
	American Samoa	
	Andorra	•

- **Countries**: choose the countries you want to apply rules to. Quick tip: press **Ctrl + A** to choose all countries.
- Apply by path of URL: This field only shows up for Specific Pages type. Insert the path of URL you want to apply the rule to. Separate values by a comma.
   For example, to apply rules for the page https://www.luma.com/radient-tee.html, insert /radient-tee.html to the field.
- Exclude by path of URL: This field only shows up for Specific Pages type. Insert the path of URL you want to exclude. Separate values by a comma.
- Exclude IPs: enter the IP of countries you want to exclude. Separate values by a comma.

Move on to the **Actions** tab. First, click **Actions** to see the options inside.

	Is Active	Yes
	Name *	Default
	Priority	1
Rules		
Actions		

In **Type**, click to choose from 2 types of actions. They are: **Redirect to a Store View/ Change Currency** or **Redirect to a URL**.

Туре	Redirect to a Store View / Change Currency	*
-	Redirect to a Store View / Change Currency	
	Dediter the study	
	Redirect to a URL	

If you choose **Redirect to a Store View/ Change Currency,** the following options will show up:

Actions	
Туре	Redirect to a Store View / Change Currency
How To Change Store View	Automatic 💌
Popup Types	Footer 🔻
Redirect To A Store	Canada
Change Currency To	EUR 💌

- How To Change Store View: select the way the visitor's view is switched.
   Automatic: automatically switch to a store view without asking visitors.
   Manually: ask visitors to select the country and currency they want.
- Popup Types: choose how the popup looks like in the front-end.
   Default: use the default popup. This is a simple center popup. It looks like this in the front-end:

# **Store Switcher**

**Center**: use the center popup. It will appear in the center of the window with several options for visitors:

**Footer**: use the footer popup. It has the same function as center popup but it is placed in the footer:

• Redirect To A Store: choose a store you want to redirect visitors to.

Redirect To A Store	Canada	•
	Brazin	
	Canada	
Change Currency To	Germany United Kingdom United States Viet Nam	

• Change Currency To: choose the currency you want for visitors.

Change Currency To	USD	*
	EUR	
	USD	

If you choose **Redirect to a URL**, the following options will show up:

Type Redire	ect to a URL	•
URL *		

In the **URL** field, insert the URL you want to resurrect visitors.

Click the **Save** button in the upper right corner to save the result.
